PRELIMINARY QUESTIONS ON NATURAL HAZARDS AND CLIMATIC CONDITIONS

PQ.1 How serious are these natural hazards in your region?

(Choose an answer from 1 to 5. Choose NA/DK if you don't know or the item does not apply to your region)

- | | | | | | | |
|---|--------------------|-------------------|------------------|--------------|-------------------|-------------------------------|
| | Not serious at all | Minimally serious | Somewhat serious | Very serious | Extremely serious | Not applicable/
Don't know |
| 1 | 2 | 3 | 4 | 5 | NA/DK | |

1. Cyclone
2. Drought
3. Earthquake
4. Epidemic
5. Flood
6. Insect infestation
7. Landslides
8. Tornado
9. Tsunami
10. Volcano
11. Wildfire
12. Other? *Specify:*

PQ.2 How have climatic conditions changed in the last 10 years in your region?

(Choose an answer from 1 to 5. Choose NA/DK if you don't know or the item does not apply to your region)

1 2 3 4 5 NA/DK*

Not at all Minimal change Some change High level of change Extreme change

1. Average temperatures
2. Changes in rainfall cycles
3. Extreme temperatures
4. Intensity of drought
5. Intensity of tropical cyclones
6. Recurrence of drought
7. Recurrence of tropical cyclones
8. Other? *Specify* :

*NOTE: In following pages, NA/DK will always refer to "Not Applicable or Don't Know"

RISK DRIVER 1: ENVIRONMENT AND NATURAL RESOURCES

D1.1.1 How serious are these environmental issues in your region?

(Choose an answer from 1 to 5)

- | | | | | | | |
|---|--------------------|-------------------|------------------|--------------|-------------------|--|
| | Not serious at all | Minimally serious | Somewhat serious | Very serious | Extremely serious | |
| 1 | 2 | 3 | 4 | 5 | NA/DK | |

1. Air pollution
2. Coastal erosion
3. Deforestation
4. Desertification
5. Soil erosion
6. Water contamination
7. Water scarcity
8. Other? *Specify :*

D1.1.2 Have these environmental issues exacerbated natural hazards in your region?

(Yes, No or NA/DK)

D1.1.3 If yes, in what way? (Open-ended answer)

D1.1.4 What are the main actions that households and communities take to deal with these issues? (Open-ended answer)

D1.2.1 Which environmental challenges are being addressed?

D1.2.2 Type of intervention?

D1.2.3 Which agencies provide support?

D.1.2.4 Effectiveness of intervention.

(Yes, No or NA/DK)

(Insert type of intervention, eg. Mangrove reforestation. You can insert up to two different types of interventions)

(National govt, local govt, international orgs, community orgs or NA/DK)

1 Not effective at all
2 Minimally effective
3 Somewhat effective
4 Very effective
5 Extremely effective
NA/DK

1. Air pollution

2. Coastal erosion

3. Deforestation

4. Desertification

5. Soil erosion

6. Water contamination

7. Water scarcity

8. Other? Specify :

D1.2.5 Why are the interventions mentioned above so effective/ineffective?

(Open-ended answer. Eg. Sufficient/insufficient funding, sufficient/insufficient technical capacity, fully/not fully implemented, includes/excludes most vulnerable)

RISK DRIVER 2: SOCIOECONOMIC CONDITIONS

D2.1.1 How serious are these social and economic issues in your region?

(Choose an answer from 1 to 5)

- | | | | | | | |
|---|--------------------|-------------------|------------------|------------------|-------------------|--|
| | Not serious at all | Minimally serious | Somewhat serious | Somewhat serious | Extremely serious | |
| 1 | 2 | 3 | 4 | 5 | NA/DK | |

1. Food insecurity
2. Gender inequality
3. In-migration
4. Limited access to education/schools
5. Limited access to health services
6. Limited access to land
7. Low level of literacy

D2.1.2 Have these social and economic issues increased peoples' vulnerability to natural hazards?

(Yes, No or NA/DK)

D2.1.3 If yes, in what way? *(Open-ended answer)*

D2.1.1 Cont'd

1 Not-serious at all
 2 Minimally serious
 3 Somewhat serious
 4 Very serious
 5 Extremely serious
 NA/DK

8. Out-migration

9. Poor level of health
 (poor nutrition, low life expectancy)

10. Poverty (low income)

11. Prevalence of HIV/AIDS

12. Prevalence of
 infectious diseases (cholera, malaria, meningitis, etc)

13. Socio-economic
 exclusion of minorities

14. Unemployment

15. Other? Specify :

D2.1.2 Cont'd
 (Yes, No or NA/DK)

D2.1.3 If yes, in what way? (Open-ended answer)

D2.1.4. What actions do households and communities take to deal with these issues? (Open-ended answer)

D2.2.1 Which social and economic challenges are being addressed?

D2.2.2 Type of intervention?

D2.2.3 Which agencies provide support?

D2.2.4 Effectiveness of intervention.

(Yes, No
or
NA/DK)

(Insert type of intervention, eg. safety nets for most vulnerable (internally displaced), microfinance in high risk areas, hazard insurance, etc. You can insert up to two different types of interventions)

(National govt, local govt, international orgs, community orgs)

1 Not effective at all
2 Minimally effective
3 Somewhat effective
4 Very effective
5 Extremely effective
NA/DK

1. Food insecurity

2. Gender inequality

3. In-migration

4. Limited access to education/schools

5. Limited access to health services

6. Limited access to land

7. Low level of literacy

8. Out-migration

9. Poor level of health
(poor nutrition, low life expectancy)

10. Poverty (low income)

D2.2.1 Cont'd

D2.2.2 Cont'd

D2.2.3 Cont'd

D2.2.4 Cont'd

(Yes, No
or
NA/DK)

(Insert type of intervention, eg. safety nets for most vulnerable (internally displaced), microfinance in high risk areas, hazard insurance, etc. You can insert up to two different types of interventions)

(National govt, local govt, international orgs, community orgs or NA/DK)

Not effective at all
1
Minimally effective
2
Somewhat effective
3
Very effective
4
Extremely effective
5
NA/DK

11. Prevalence of HIV/AIDS

12. Prevalence of infectious diseases (cholera, malaria, etc)

13. Socio-economic exclusion of minorities

14. Unemployment

15. Other? Specify :

D2.2.5 Why are the interventions mentioned above so effective/ineffective?

(Open-ended answer, eg. sufficient/insufficient funding, sufficient/insufficient technical capacity, fully/not fully implemented, includes/excludes most vulnerable)

RISK DRIVER 3: LAND USE AND THE BUILT ENVIRONMENT

D3.1R.0. Is there a rural area in your region with which you are familiar? (Yes, No or NA/DK)

(If NO or NA/DK, go to question D3.1U.0, on page 11)

D3.1R.1 If yes, for rural areas in your region, how serious are these land use/physical issues?

(Choose an answer from 1 to 5)

- | | | | | | | |
|---|--------------------|-------------------|------------------|--------------|-------------------|--|
| | Not serious at all | Minimally serious | Somewhat serious | Very serious | Extremely serious | |
| 1 | 2 | 3 | 4 | 5 | NA/DK | |

1. Basic infrastructure (electricity, water, etc.) in dangerous locations

2. Critical public facilities in dangerous locations (steep slopes, river beds, etc.)

3. Housing in dangerous locations (steep slopes, river beds, etc)

4. Limited access to water supply

5. Overcrowded conditions

6. Poorly built basic infrastructure

D3.1R.2 Have these land use/physical issues increased peoples' vulnerability to natural hazards?

(Yes, No or NA/DK)

D3.1R.3 If yes, in what way? *(Open-ended answer)*

Not-serious at all
 Minimally serious
 Somewhat serious
 Very serious
 Extremely serious
 NA/DK

D3.1R.1 Cont'd

- 7. Poorly built critical public facilities
- 8. Poorly built housing
- 9. Poorly built productive infrastructure
- 10. Poor drainage/water disposal
- 11. Productive infrastructure in dangerous locations (steep slopes, river beds, etc.)
- 12. Other? *Specify* :

D3.1R.2 Cont'd
 (Yes, No or NA/DK)

D3.1R.3 If yes, in what way? (Open-ended answer)

D3.1R.4 What actions do households and communities take to deal with these issues? (Open-ended answer)

D3.1U.0. Is there an urban area in your region with which you are familiar? (Yes, No or NA/DK) (If NO or NA/DK, go to question D3.2.1, on page 13)

D3.1U.1 If yes, for urban areas in your region how serious are these land use/physical issues?
 (Choose an answer from 1 to 5)

Not serious at all
 Minimally serious
 Somewhat serious
 Very serious
 Extremely serious
 NA/DK

1 2 3 4 5

1. Basic infrastructure in (water, electricity, etc) dangerous locations
2. Critical public facilities in dangerous locations (steep slopes, river beds, etc)
3. Housing in dangerous locations (steep slopes, river beds, etc)
4. Limited access to water supply
5. Overcrowded conditions
6. Poorly built basic infrastructure

D3.1U.2 Have these land use/structural issues increased peoples' vulnerability to natural hazards?

(Yes, No or NA/DK)

D3.1U.3 If yes, in what way? (Open-ended answer)

D3.1U.1 Cont'd	1	2	3	4	5	NA/DK	D3.1U.2 Cont'd (Yes, No or NA/DK)	D3.1U.3 If yes, in what way? (Open-ended answer)
	Not serious at all Minimally serious Somewhat serious Very serious Extremely serious							
7. Poorly built critical public facilities								
8. Poorly built housing								
9. Poorly built productive infrastructure								
10. Poor drainage/water disposal								
11. Productive infrastructure in dangerous locations (steep slopes, river beds, etc)								
12. Other? Specify :								
D3.1U.4. What actions do households and communities take to deal with these issues? (Open-ended answer)								

D3.2.1 Which land use/physical challenges are being addressed?

D3.2.2 Type of intervention/plan/regulation?

D3.2.3 Which agencies provide support?

D3.2.4 Effectiveness of intervention.

(Yes, No
or
NA/DK)

(Insert type of intervention/plan/regulation,
eg. enforcement of hazard building codes, land
management policies, building insurance, etc.
You can insert up to two different types of
interventions)

(National govt,
local govt,
international
orgs,
community orgs
or NA/DK)

Not effective at all 1
Minimally effective 2
Somewhat effective 3
Very effective 4
Extremely effective 5
NA/DK

1. Basic infrastructure
(electricity, etc) in dangerous areas

2. Critical public facilities
in dangerous areas (steep slopes, etc)

3. Housing in dangerous
areas (steep slopes, etc)

4. Limited access to
water supply

5. Overcrowded conditions

6. Poorly built basic
infrastructure

7. Poorly built critical
public facilities

8. Poorly built housing

9. Poorly built
productive infrastructure

D3.2.1 Cont'd

D3.2.2 Cont'd

D3.2.3 Cont'd

D3.2.4 Cont'd

(Yes, No
or
NA/DK)

(Insert type of intervention/plan/regulation,
eg. enforcement of hazard building codes, land
management policies, building insurance, etc.
You can insert up to two different types of
interventions)

(National govt,
local govt,
international
orgs,
community orgs
or NA/DK)

Not effective at all
Minimally effective
Somewhat effective
Very effective
Extremely effective
NA/DK

10. Poor drainage/water disposal

11. Productive infrastructure in dangerous areas (steep slopes, etc)

12. Other? Specify :

D3.2.5 Why are the interventions mentioned above so effective/ineffective?

(Open-ended answer, eg. sufficient/insufficient funding, sufficient/insufficient technical capacity, fully/not fully implemented, includes/excludes most vulnerable)

RISK DRIVER 4: GOVERNANCE

D4.1.1 How serious are these governance issues in your region?

(Choose an answer from 1 to 5)

	Not serious at all	Minimally serious	Somewhat serious	Very serious	Extremely serious	
1	2	3	4	5	NA/DK	

1. Centralised decision making

2. Conflict (armed, localized, etc.)

3. Corruption

4. Exclusion of particular groups (minorities, ethnic groups, clans, etc.) from decision-making processes

5. Exclusion of women from decision-making processes

6. Inefficient bureaucracy

7. Lack of civil society participation in decision-making

D4.1.2 Have these governance issues increased peoples' vulnerability to hazards?

(Yes, No or NA/DK)

D4.1.3 If yes, in what way? *(Open-ended answer)*

D4.1.1 Cont'd

1 Not-serious at all
 2 Minimally serious
 3 Somewhat serious
 4 Very serious
 5 Extremely serious
 NA/DK

8. Lack of human capacity

9. Lack of intergovernmental coordination

10. Lack of accountability

11. Limited financial capacity

12. Media censorship

13. Non-compliance with law

14. Other? *Specify* :

D4.1.2 Cont'd
 (Yes, No or NA/DK)

D4.1.3 If yes, in what way? (Open-ended answer)

D4.1.4 What actions do households and communities take to deal with these issues? (Open-ended answer)

D4.2.1 Which of these challenges are being addressed?

D4.2.2 Type of intervention?

D4.2.3 Which agencies provide support?

D4.2.4 Effectiveness of intervention.

(Yes, No or NA/DK)

(Insert type of intervention, eg. capacity building program at local government level, etc. You can insert up to two different types of interventions)

(National govt, local govt, international orgs, community orgs or NA/DK)

1 Not effective at all
 2 Minimally effective
 3 Somewhat effective
 4 Very effective
 5 Extremely effective
 NA/DK

1. Centralised decision making

2. Conflict (armed, localized, etc.)

3. Corruption

4. Exclusion of particular groups from decision-making processes

5. Exclusion of women from decision-making processes

6. Inefficient bureaucracy

7. Lack of civil society participation in decision-making

8. Lack of human capacity

9. Lack of intergovernmental coordination

10. Lack of accountability

D4.2.1 Cont'd

D4.2.2 Cont'd

D4.2.3 Cont'd

D4.2.4 Cont'd

(Yes, No or NA/DK) (Insert type of intervention, eg. capacity building program at local government level, etc. You can insert up to two different types of interventions)

(National govt, local govt, international orgs, community orgs or NA/DK)

1 Not effective at all
 2 Minimally effective
 3 Somewhat effective
 4 Very effective
 5 Extremely effective
 NA/DK

11. Limited financial capacity

12. Media censorship

13. Non-compliance with law

14. Other? Specify :

D4.2.5 Why are the interventions mentioned above so effective/ineffective?

(Open-ended answer, eg. sufficient/insufficient funding, sufficient/insufficient technical capacity, fully/not fully implemented, includes/excludes most vulnerable)
